

# LITRABIT

A UNIVERSAL AND DECENTRALIZED BLOCKCHAIN BASED CRYPTOCURRENCY FOR STUDENTS, ALL AROUND THE WORLD.

"EDUCATION DECENTRALIZED"

Every semester the fees of educational institutes worldwide rise making it so that attaining education gets more and more out of reach of the normal folks add to this the fact that Students are humans and have so many other expenses besides just institutional fees, the rapidly worsening economy is taking a toll on those who seek Education.

**LitraBit** – Our solution to this problem is LitraBit, taking advantage of the recently booming cryptocurrency economy. Why not apply a universal, decentralized, changeless blockchain based currency to the cost of education? Which makes it so that the value of capital owned by the students remain static and one can use it to pay for any education related expense without the worry of it losing value.

LitraBit is an ERC20 token, a cryptocurrency based around the successful Ethereum Blockchain. That will replace traditional cash in the educational ecosystem. It aims for a future where most if not all transactions on a college or university campus take place in LitraBits.

With a total supply of **22 Million LitraBits**, **42.7% or 9.4 Million** will be offered for **ICO**.

**Benefits for early Investment include** – **1**, Discounted rates for later token buying. **2**, Profit based on LitraBit capital from 20% of the company revenue for two years. **3**, Scholarship Priority. **4**, Opportunity to become LitraBit Partner. **5**, Free Debit Card. **6**, Lower Cost on services. - For further detail read the WhitePaper.

Making it easier and cheaper for students to pay dues and make all the necessary transaction that are required to keep their educational process going. Which Includes paying the institutional fees, cafeteria bills, hostel dues, receiving scholarships, buying books and equipment from all major retailers, making p2p transactions and much more.

The LitraBit interface will be composed of a **LitraBit wallet** on smartphones and The **LitraBit Debit card + Cash Debit Card**. The Debit Card will allow students to make LitraBit transaction within the LitraBit system. While the Cash Debit Card will allow any LitraBit token owner to exchange LitraBits for cash at current rates.
